As a singer/songwriter Très music is socially and politically relevant Rock/Pop. Très CD "Writing On The Wall" starts with edgy Rock, moves into emotionally charged ballads and finishes with danceable melodic pop. It is for sale from the **Bent Music Store** and from **Très Web Site**. Très music, along with other Bent Music artists can be found pre-loaded on Philips GoGear, MP3 players and other media devices distributed to millions of customers world wide. Bent Music will be giving away some of these players at Très live shows in 2008. Visit Bent Music for details!

Très - Writing On The Wall Album Review - **Smother Magazine** by J-Sin

"Très plays rhythm guitar and sings on her debut album 'Writing On The Wall' on the Bent Music label. Interestingly the music is urban-flecked rock-n-roll with a country vibe hidden somewhere underneath. The lyrics can be simple stories or almost complex allusions and allegories. 'Sticks and Stones' is a tender tale brought about with simple strumming of a guitar, light flute and violin, and of course Très lush voice. So what do you think of great Americana and roots rock coming out of Canada? Maybe NAFTA is a good thing!"

TRES "STICKS & STONES" HELPS TO DRIVE HOME MESSAGE ABOUT GENOCIDE IN RWANDA - STANFORD UNIVERSITY PRESENTATION

The Department of Religious Studies at Stanford University recently held a presentation on Ethical Responses to Genocide. This presentation discusses genocide occurring around the world today and what we can and should be doing about it. Genocide is the deliberate and systematic extermination of an ethnic or national group. At the end of the discussion there is a slide show presentation of the children of Rwanda who were innocent victims of a 100 day genocide in 1994, some of which were slaughtered by machete. The slide show is set against Très song "Sticks & Stones". To view this presentation go to <http://tres.bentmusic.ca/Genocide-Video.html> or <http://itunes.stanford.edu> and search for "genocide video".

Très started **Bent Music** as an Independent Record Label which grew into an On-line Music Store, Distributor and Musician's Resource with the idea of creating a place where musician's had control over their music, made the largest percentage from their sales, and could benefit from each others traffic. Later Très struck an exclusive deal with Philips Electronics to advertise Bent Music artists on their digital devices being distributed to millions world wide and to include Bent Music advertising in their bi-packs.

Très is currently playing live both with her four piece band and as an acoustic duo with Bratty, will be returning to the studio to record her next CD "Dark Angel", and remains the driving force behind Bent Music.

Très affiliations are: CARAS; TMA; SOCAN; CIRAA
